

By submitting information about your tastings to **Chapter Events**, you take advantage of a golden opportunity to promote your chapter and get national recognition for the hard work that goes into planning and hosting tastings, gatherings and events. What better to give some well-deserved praise to those hosts and hostesses than by seeing their name in print!

Include up to 12 lines to explain the theme of the tasting and how it was received by the members. Then, provide a list of the wines that you tasted and their prices and rankings. Remember, the AWS motto is **Promoting Appreciation of Wine through Education**. Are you helping to meet the mission? What was the outcome of the judging? What was learned?

Here is a sample of a submission in the approved format:

The **Raritan Valley (NJ) Chapter** met on September 14, at the home of Lou and Madeline Piancone for a tasting featuring the Wines of Sicily. Twenty-seven members and guests were present. Many Sicilian wines are available in the US. Research found that Sicily's terrain is very rocky and mountainous with many of the better wines grown and produced in the rich volcanic soil near Mt. Etna. It was also learned that, only recently, Sicily's winemaking methodology has improved and we will see in the near future more improved quality wines coming from this beautiful Mediterranean island.
